<p>Why is the Northern Hemisphere in winter when the earth is closest to the sun?</p> <ul style="list-style-type: none"><li>• Answer: The Northern Hemisphere is pointed away from the sun at perihelion. This is a much greater effect than the distance from the sun.</li></ul> <p>The point at which the earth is the farthest from the sun.</p> <ul style="list-style-type: none"><li>• Answer: Aphelion</li></ul> <p>A boundary between two air masses</p> <ul style="list-style-type: none"><li>• Answer: Weather Front</li></ul>																									

The point at which the earth is the closest from the sun.

- Answer: Perihelion

A large body of air with relatively uniform pressure, temperature, and humidity

- Answer: Air Mass

The way in which the rotation of the earth bends the path of winds, sea, currents, and objects that fly through different latitudes.

- Answer: Coriolis Effect

In the Southern Hemisphere, the day lengths are  12 hours between the winter solstice and the spring equinox. The days are .

What would happen to life on earth if it had no axial tilt?

- Choose one answer.
- a. The earth's tilt doesn't matter that much.
  - b. The difference between day and night temperatures would be too great for life.

What type of clouds are these?

- Choose one answer.
- a. Lenticular Clouds
  - b. Cirrus Clouds
  - c. Cumulus Clouds
  - d. Cumulonimbus Clouds

You watch the sky as cirrus clouds form followed by stratus and nimbostratus clouds. Do you expect a violent rainstorm or a long, lighter rain?

Choose one answer.

- a. Violents storm
- b. Long, gentler rain

An air mass is dry and warm. What kind of air mass is it?

Choose one answer.

- a. continental tropical
- b. continental temperate

If an area receives a large amount of insolation, it is likely to be warm or cold?

Choose one answer.

- a. cold
- b. warm

Of the three main factors that influence weather, which is mostly responsible for winds?

Choose one answer.

- a. uneven distribution of thermal energy
- b. wator vapor in the atmosphere
- c. thermal energy

What are dark cumulus clouds called?

- Answer: cumulonimbus
